Braintree Public Schools
128 Town Street
Braintree, MA 02184

To Whom It May Concern:

Akshat Pandey has been a part of the BPS Technology Intern program for almost a year now. Since joining the internship program (which hosts a mix of college and high school students), Akshat has demonstrated punctuality, an impeccable work ethic, initiative, and an affinity for group work. He has contributed immensely to our program- whether it be hardware repairs, offering suggestions for streamlining processes, or having a willingness to help out wherever and whenever he can. Akshat has an extremely positive attitude, and is a pleasure to work with and be around. He would be a tremendous asset to any organization, and is determined to do the work required to be successful in the endeavors he pursues.

Please do not hesitate to contact me if you have any questions regarding Akshat and his application to your school.

Sincerely,

Jon Brace, Senior Technology Manager
